Executive Summary

Section 1: Introduction and Goals

- 1.1 Introduction
- 1.2 Planning Process
- 1.3 Goals
- 1.4 Summary

Section 2: Demographics Analysis and Survey Results

- 2.1 Introduction
- 2.2 Demographic Analysis
- 2.3 Community Concerns and Needs
- 2.4 Summary

Section 3: Existing Facilities

- 3.1 Introduction
- 3.2 Major Roads and Existing Sidewalks
- 3.3 Land Uses and Zoning
- 3.4 Major Destinations
- 3.5 Summary

Section 4: Existing Plans and Policies

- 4.1 Introduction
- 4.2 Existing Plans
- 4.3 Existing Policies
- 4.4 Summary

Section 5: Focus Areas

- 5.1 Introduction
- 5.2 Intersection of US 17 and Church Street/Harvey Point Road and Points South
- 5.3 Perquimans High School and Hertford Grammar School
- 5.4 Missing Mill Park
- 5.5 Raccoon Creek Pier and Canoe Launch Area
- 5.6 Connections along the Causeway and S-Bridge
- 5.7 Other Proposed Focus Areas
- 5.8 Summary

Section 6: Design Standards and Guidelines

- 6.1 Introduction
- 6.2 Legal Rights of Pedestrians
- 6.3 Pedestrian Facilities and their Design
- 6.4 Downtown Area Standards
- 6.5 Schools
- 6.6 Construction Zones
- 6.7 Parking Lot Design
- 6.8 Traffic Calming Considerations
- 6.9 Summary

Section 7: Programs and Policy Recommendations

- 7.1 Introduction
- 7.2 Program Recommendations
- 7.3 Policy Recommendations
- 7.4 Summary

Section 8: Project Recommendations

- 8.1 Introduction
- 8.2 Projects
- 8.3 Cost Estimates
- 8.4 Prioritization
- 8.5 Summary

Section 9: Implementation

- 9.1 Introduction
- 9.2 Funding
- 9.3 Recognition Programs
- 9.4 Implementation
- 9.5 Summary

Appendix 1: Public Involvement Materials

Appendix 2: Demographics

Appendix 3: Survey Results

List of Figures and Tables

Section 1: Introduction and Goals

Figures

Figure 1-1. The Visitor's Bureau and Chamber of Commerce in Hertford welcomes visitors and residents alike.

Figure 1-2. Woodard's Pharmacy is a Hertford hallmark, and its distinctive sign contributes to the sense of community in the Town.

Section 2: Demographic Analysis and Survey

Tables

Table 2-1. Town of Hertford Change Statistics.

Section 3: Existing Facilities

Figures

Figure 3-1. Map of major roads and existing sidewalks and crosswalks in Hertford.

Figure 3-2. A map of zoning in Hertford.

Figure 3-3. A map of the some of the major landmarks and destinations in Hertford.

Section 4: Existing Plans and Policies

Figures

Figure 4-1. A sign near the Perquimans County Courthouse in Downtown Hertford discusses Hertford's National Register Historic District.

Figure 4-2. Draft Town of Hertford Corridor Plan Future Transportation and Land Use.

Figure 4-3. Sample Pedestrian Guidelines (adapted from Wisconsin DOT).

Section 5: Focus Areas

Figures

Figure 5-1. Focus areas for targeted projects in the Pedestrian Plan.

Figure 5-2. Perquimans High School is located along South Edenton Street Road in Hertford, within close proximity of Hertford Grammar School. There is limited sidewalk access between the two schools.

Figure 5-3. Missing Mill Park could be a major pedestrian destination in Town. IT should have more signs to alert visitors of its presence and a crosswalk to connect it to the nearby senior center and tennis courts.

Figure 5-4. The Raccoon Creek Pier area should be highlighted to make it more attractive for visitors and residents.

Section 6: Design Guidelines and Standards

Figures

Figure 6-1. Detail of an ADA-compliant curb ramp design and with truncated dome measurements.

Figure 6-2. Drawing of appropriate curb ramp placements. In each image, the curb ramps are located completely within the crosswalk limits.

Figure 6-3. Examples of acceptable and unacceptable design solutions for minimizing cross-sloping at a driveway and sidewalk interface.

Figure 6-4. A diagram of the relationship between pedestrian features, building facades, and the roadway.

Figure 6-5. Examples of pedestrian-activated signalized mid-block crossings.

Figure 6-6. A diagram of various crossing treatments Hertford can consider to improve pedestrian accessibility and safety crossing the street.

Figure 6-7. The City of Charlotte's solution space for considering when to apply signalized mid-block pedestrian crossings.

Figure 6-8. An example of two types of signs used to notify motorists of a pedestrian crossing.

Figure 6-9. Example standard pedestrian warning signs.

Figure 6-10. A diagram of general greenway design near to a coastal shoreline.

Figure 6-11. A view of Church Street in Downtown Hertford.

Figure 6-12. A sample signage plan to assist pedestrians using detours in construction zones.

Figure 6-13. Poor pedestrian access at a construction site in Cary, NC

Figure 6-14. An example of pedestrian-friendly parking lot design.

Figure 6-15. An example of bulb-out placement to reduce curb radii and shorten travel distances for pedestrians crossing at an intersection.

Figure 6-16. An example of well-designed median and refuge islands.

Tables

Table 6-1. Mid-block Crossing Treatment Design Criteria (Charlotte DOT, 2005).

Section 7: Program and Policy Recommendations

Figures

Figure 7-1. The Indian Summer Festival is an annual Hertford event.

Figure 7-2. Parents at a Safe Routes to School workshop in New Jersey discuss improvements to their school.

Figure 7-3. Factors that promote or hinder walking in a community.

Section 8: Project Recommendations

Figures

Figure 8-1. Map of proposed projects for the Church Street/Harvey Point Road/US 17 area.

Figure 8-2. A map of the proposed projects to provide pedestrian connections to the schools in Hertford from residential areas.

Figure 8-3. Map of proposed projects for the Missing Mill Park area.

Figure 8-4. Map of proposed project for a connection to the Raccoon Creek Pier from downtown Hertford.

Figure 8-5. Proposed projects along the Causeway for a potential connection to Winfall and scenic route.

Figure 8-6. Projects for Hertford by priority.

Tables

Table 8-1. Cost estimates for proposed projects by Focus Area.

Table 8-2. Short Term Priorities (0-5 years).

Table 8-3. Mid-Term Priorities (6-10 years).

Table 8-4. Long-Term Priorities (10 or more years).

Section 9. Implementation

Tables

Table 9-1. Short Term Actions (1-5 years).

Table 9-2. Mid-Term Actions (6-10 years).

Table 9-3. Long-Term Actions (10 or more years).
